

Funding Report for the Fiscal Year from July 2009 - July 2010

During our past fiscal year we successfully achieved our fund raising goal of \$60,000 operating expenses and \$5,000 for our final land payment. During the year we offered more public events and services with the same general budget. We are grateful to all of our supporters including those that put in many hours of volunteer services.

We were unable to raise funds for expanding hours and our much needed building improvement fund.

We look to the coming fiscal year to raise those funds.
